DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 2, 18 and 19 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S. Patent No. 6,721,908 to Kim *et al* (hereafter "Kim").

Regarding claims 1 and 2, Kim discloses arrangements for interleaving and deinterleaving data for a turbo code decoder operating "on the fly" in accordance with plural standards (IMT-2000, UMTS, CDMA-200) and their plural bit rates. Kim shows interleaver logic (Figs. 7 and 10) based on a "preprocessor for preparing seed variables that vary according to the interleaving method of each of a plurality of standards and bit rates" (initial seed #0, #1, etc.) as shown for the cdma2000 standard at different rates (Tables 8 and 9) and for the UMTS standard at different rates (Tables 12 and 13), and an "address generator means" (mux 15, counter 19, comparator 222, adder 224) for "generating an interleaved address on the fly using the seed variables and performing an add operation" wherein the "add operation" is performed by Kim's Adder 224..

Regarding claims 18 and 19, Kim's low address portion and high address portion correspond to row addresses and column addresses, and by generating column addresses "on the fly," Kim generates addresses "column by column."

Allowable Subject Matter

3. Claims 8-12, 15-17, 21 and 22 are allowed.
4. Claims 3, 4, 6, 7 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed 24 April 2007 have been fully considered but they are not persuasive.

Applicant suggests there is no adder in the disclosure of Kim. The rejection now specifies where an adder is found in the disclosure of Kim.

Conclusion

6. Applicant's amendment necessitated the new ground of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
